THE  
"SPARLING" PATENT PADLOCK.

No. 1712-33-M. Government of India Public Works Department  
Civil Works (miscellaneous) Memorandum. Simla, the 1st  
December 1914.

**LOCKS.—Suitability of "Sparling" Patent—**

The attention of the Government of India has recently been drawn to the excellence of "Sparling" patent padlocks manufactured at the "Sparling" Lock Works at Aligarh.

The principal advantages of these locks, lie in their great strength, being made out of solid brass, and the extreme difficulty in breaking them or fitting them with false or skeleton keys. The locks have been submitted to and have successfully withstood very severe tests in Government workshops, and appear to be eminently suited to all purposes for which a secure and reliable padlock is required. As the locks are made in India, and are obtainable at a very much cheaper rate than imported padlocks at all comparable with them in quality, the attention of local Governments and of other authorities is drawn to this local product.

No. K. 28 dated 7th April 1923.

From Chief Controller of Stores, Indian Stores Department, Simla.

This Department will bring your locks to the notice of all indentors as and when suitable opportunities arise."

Full particulars can be obtained from the—

"SPARLING" PATENT LOCK WORKS, ALIGARH, United Provinces.
